

A better environment inside and out.

Solar Gard® LX 70

the Ultimate Solution

Why is Solar Gard® LX 70 the ultimate solution for you and your consumers?

You can make big dollars by learning how to upsell to this film! When advising your customers on the most appropriate choice of window film, don't overlook the many benefits that LX 70 has to offer.

- Solar Gard LX 70 is the ultimate for:
- Comfort - keeping out over half of the sun's total solar energy (55% TSER)
- Light - maintaining maximum visible light transmittance (73% VLT)
- Views - adding only 1% reflection to existing glazing (VLTR 9%) allowing maximum enjoyment of views
- Protection - over 99% of ultraviolet light and more than half the amount of total solar energy is blocked

Good news!

Solar Gard LX 70 is *now available in 48"* rolls as well as 60" rolls, making it even more convenient!

* Contact us to receive your updated copy of the LX 70 installation procedures.

20% off

For the month of September we are offering a 20% discount off list price for Solar Gard LX 70 orders.

Offer is available for orders placed from 1st to 30th September 2010 and applies to whole rolls only. Offer does not apply to any other discounts.
