## Exciting NEW Products...

Grange Graphics is pleased to announce that we are now stocking a complete range of LG Hausys Vizuon brand Digital Print Vinyl's. The LG Vizuon brand offers significant savings compared to similar quality products. The digital print range is available in various options and all are complete with matching over laminates.

These savings are additionally reflected in our digital print service prices and we recommend specifying LG Vizuon for your next digital print project.

We also launch our unique range of Gecko adhesive products. Featuring an easy-to-apply repositionable adhesive that makes dry-installation a breeze on smooth surfaces such as walls, glass and interior fixtures.

Our new **WallGecko** white vinyl is ideal for creating hassle free wall graphic applications. So easy to position and apply with its initial low-tack properties, it can then be re-applied many times before the adhesive sets to a firm bond.

## New Gecko Adhesive

We also introduce our new internal apply One-Way-Vision with a revolutionary printable adhesive. GeckoVue will allow one way graphics to be fitted to the internal glass side of windows and provides a longer term option with protection from outdoor wear, deterioration and vandalism.

Looking for something different to spice up the look of any car? How about a Carbon Fibre bonnet? Mirrors, a Dash or the Whole Car?

Our new textured, carbon fibre films look and feel like the real thing. Easy to apply - bubble-free adhesive, conformable vinyl construction and all at a truly affordable price!

Made in the USA and available in 2 Year or 5 Year Grades. Sold by the roll or metre, check out our price list update.

## ...and more Carbon Fibre

How about a carbon fibre look for glass & windows?

Our new DV36 Carbon Frost creates a unique contemporary look

to office partitioning and feature windows.

Available in 1220mm x 50M rolls or via our Pre-Cut to size service.
