

## Anti Grafitti/Anti Vandal Films

**RWT** can provide a solution to costly glass replacement through vandalism, both spray paint grafitti and glass scratching or etching.

It is suitable for exterior application to glass and metal surfaces. It is used in high pedestrian traffic areas to protect signage, retail shop fronts, public areas, shopping centers and public transport vehicles, including bus and train windows.

Anti Vandal films are very cost effective. Quick and easy to apply and replace. Replacing damaged films means your business is quickly presentable with little or no interruption to your trade.

The cost difference between applying Anti Vandal films and replacing the glass in most cases is less than 30%. Suitable for glass, mirrors, marble and stainless steel

**Graffiti/etching is a depressing and expensive reality of life.**

Vandals strike wherever there is temptation, glass and mirrors in public buildings, such as shopping centers, toilet mirrors, foyers, elevator lifts or shop front windows.
